

CAQ Series - Silent Bathroom Fan

Description and Applications

CAQ is a highly efficient, super low-noise Bathroom fan designed for continuous use. It holds certifications from HVI and ETL, ensuring it meets high industry standards. Ideal for single-family homes, apartments, offices, and condominiums, CAQ model is not only versatile but also energy-efficient, being an ENERGY STAR-certified product. Its integration into various spaces underscores its commitment to enhancing indoor air quality, making it a valuable addition to modern living and working environments.
